

João Paulo Marson

Project & Digital Product Management · Fintech and Payments

São Paulo, Brasil jp@jpmarson.com.br jpmarson.com.br linkedin.com/in/jpmarson

SUMMARY

Project management leader with 16+ years of experience across technology, digital products and payments. I currently manage project manager teams at one of the world's largest financial technology companies, building the project management capability in Brazil across three fronts: financial products, Acquiring as a Service (AQaaS) and regulatory & platform initiatives. My career spans both fintech and large enterprises, with a focus on value-driven prioritization, delivery predictability, clear metrics and pragmatic governance. Strong background in agile methods (Scrum, Kanban, LeSS), API integrations and stakeholder management across business and technology.

PROFESSIONAL EXPERIENCE

Manager, Technical Project Management **Fiserv**

Aug 2025 – Present · São Paulo, Brazil

Building a cross-team Project Management capability in Brazil, focused on execution, compliance and measurable business impact. I lead three project management groups.

- Ensuring regulatory and card scheme compliance across products and operations.
- Leading the delivery and evolution of core products and features.
- Enabling new acquirers through the Acquiring as a Service (AQaaS) platform.
- Aligning project prioritization with business goals, improving delivery predictability and financial return.
- Current focus: operational efficiency, value-driven prioritization, clear metrics, continuous improvement and pragmatic governance — standardize only what scales.

Technical Product Owner **alt.bank**

Jan 2020 – Jul 2025 · Remote · 5 years 7 months

Technical Product Owner for the novücard credit card, working across business and engineering teams with a deep focus on why each solution was being built — aligning business goals, technical capabilities and customer needs.

- Reduced onboarding cost by 40% and fraud rate by 30%.
- Cut underwriting response time from 24 hours to immediate.
- Delivered a full card processor migration in 6 months.
- Removed over 1,000 monthly contacts from the customer support team.
- Increased physical card activation by 20%.
- Planned, controlled and gave company-wide visibility of delivery; facilitated prioritization forums between business and tech.
- Analyzed production data to identify product improvements, fraud patterns and bugs.

Technical Product Owner **ITS Soluções**

Jun 2018 – Jan 2020 · São Paulo · 1 year 8 months

Product Owner for an IT ticket automation SaaS product, identifying customer pain points and designing tailored solutions with developers and architects. Also acted as a pre-sales consultant.

- Defined and prioritized features; built the MVP and product roadmap.
- Managed risk to ensure product quality, effective UX and technical feasibility.

- Validated solutions directly with clients and kept transparent communication through release notes.

EARLIER CAREER

Scrum Master · StratioBD — Digital transformation at Banco Carrefour Brasil: Scrum implementation across two teams, training on Scrum, Kanban, MVP, metrics and LeSS, plus flow KPI management. (Jul 2017 — Jun 2018)

Scrum Master · Nextel Telecomunicações — Defined methodology, processes and best practices for the digital area responsible for mobile apps; served two teams. (Apr 2017 — Jul 2017)

Product Owner / Scrum Master · ITS Soluções — Defined project management methodology, pre-sales, requirements gathering, user stories, release planning and agile KPIs. (Jun 2015 — 2017)

Project Manager MS Dynamics AX/CRM · AX4B and SAGlobal — ERP and CRM project management: scheduling, scope, milestones, team coordination and client relationship. (2010 — Jun 2015)

Pre-sales and CRM Consultant · Metrics Information System — Mapped commercial processes, implemented and trained Dynamics CRM, and served clients across Latin America. (Aug 2008 — Apr 2010)
